New York, NY – T (917) 733-5851 – shawnoakley@gmail.com - <https://github.com/ShawnOakley>

REPRESENTATIVE PROJECTS

PSEUDOOWUFOO

October 2013

formcreatorsao.herokuapp.com

https://github.com/ShawnOakley/form_generator_app

Rails application that dynamically generates HTML forms based on user input. Integrates jQuery UI and AJAX interaction with server. Integrates with SendGrid, allowing for forms to be emailed to multiple targets. Forms may be routed to customer's own servers or the app's servers, which allow for analytic support.
